

PI001 – INTEGRATED POLICY

VIROSPACK S.L.U is fully committed to the protection of the environment and ongoing improvement in quality, safety and environmental performance. To conducting all of our operations in a manner that covers protection of health and safety of employees, customers, suppliers and the community at large.

In order to achieve this objective, VIROSPACK, S.L.U has **implemented** an Integrated Quality and Environmental Management Policy (IMS) that provides a **framework** to set company's goals and objectives.

Since we **know** and understand the current **market**, we strive to provide existing and prospective clients with products and technical resources which meet and exceed their requirements, needs and expectations. We are committed to **continuous improvement** in order to:

- **Comply** with **legal requirements** along with the ones which Virospack subscribes related to the needs and expectations which may affect the product offered.
- Develop a high-performance **work system** based on the **quality, reduction** of resource consumption, the purpose of **pollution prevention and control strategies** using processes, practices, materials and products environmentally friendly.
- In-depth **knowledge** of the **expectations, requirements and risks** of interested parties to ensure that the company remains in compliance with all their objectives and satisfaction.
- **Identify** internal and external **processes and characteristics** which can either positively or negatively affect the Organization.
- Personnel **participation and involvement** as a key factor for success in the development of all the activities.
- Sharpening employee **environmental awareness** on the 3r's rule (Reduce, Reuse and Recycle).
- Commitment to protecting our environment by reducing air emissions.

This policy will be guaranteed by VIROSPACK's CEO. It will be communicated, understood, applied and revised to ensure its continued adequacy. Senior Management shall ensure that this policy is in continuous improvement and interactively communicated to the interested parties, and that they will receive the necessary equipment, media and training.
